

Proposal for post flood rehabilitation program

Name of the program:

Post Flood Rehabilitation Program.

Almost every year Bangladesh faces the same phenomenon during monsoon. Especially People, living near river, fight to survive because of increasing water level of the river and river bank erosion. Devastating flood leads to lose of housing of a huge number of people, with their last income sources. With the decreasing of flood water they drive for making their houses which they had lost because of flood and they are seeking new income activities. But they face an unbalance situation and can not do as they expect because of their economic condition and reality they met on the regular basis. So we feel who have the capacity, the social responsibility to those people who are fighting to survive as a human being.

Donor for the program:

SpaandanB, a charitable US non-profit organization of expatriate Bangladeshi in the San Francisco Bay area. The organization is a reputed associate in case of rehabilitation of any probable sector of the country

Organizer/Implementation organization:

Badhan (A volunteer blood donors' organization) is an organization of graduate and post graduate level student.

Selected area:

The post flood rehabilitation program will organize in north districts of Bangladesh mainly in Faridpur, Rajbari, Kurigram, Gaibandha, Sirajgonj, Bogra etc.

Time schedule:

The program will start on the first week of September, 07 (tentative) and finish at the end of September, 07.

Recipients:

The post flood rehabilitation program will be organized for the people who affected severely in the flood area of the northern part of Bangladesh.

Experience in previous relief and rehabilitation programs:

Badhan has a lot of experience in relief and rehabilitation program implementation in flood effected remote areas all over Bangladesh especially in north area of the country.

In 2004, **Badhan** organized a number of relief and rehabilitation programs in that area by their own finance and donation fund from SpaandanB, Japan-Bangla group and other some organizations.

In 2005, **Badhan** organized a couple of programs in **Monga** area named **Food for Work** in the district of Kurigram. **Badhan** organized Monga area people who work whole day and they dug soil from river side and filled up road and school field. Local people felt that they had earned money by hard working. They did not feel it was relief or gift.

Since first week of August, 07 **Badhan** has started relief work in different area of Bangladesh by its own collected fund and donation from SpaandanB and others humanitarian organization in 10 different areas where human is suffering from lack of food and pure water. Almost 2700 family has benefited from **Badhan**'s relief distribution activities. During the relief activities **Badhan** volunteers selected some remote areas from different zone, especially from the northern area of the country. Kurigram, Gaibandha, Sirajgonj, Rangpur, Manikgonj has given priority.

So **Badhan** is able to implement rehabilitation programs in the flood affected area more efficiently and more fruitfully.

Plan to implementation:

In previous programs **Badhan** volunteers selected local flood affected people and provided them tin, goats etc. To implement rehabilitation programs this time **Badhan** will change some schedules in the plan. **Badhan** will implement rehabilitation program in the following way.

By whom the program will be organized:

Badhan, Central Committee will organize the program by local **Badhan** volunteers. **Badhan** has a lot of volunteers in education institution like Govt. Ajjul Haq College, Rongpur Karmaikel College, Rongpur Govt College, Dinajpur Govt. College, Kurigram Govt. College etc in north area of the country.

What they will in the affected area:

A group of **Badhan** volunteers will go to the affected area to observe and select most affected family of the community and give them **token** to identify in future. The group will show their interest to know what they have lost and how flood has damaged their houses. The group will talk with them and try to know actually what they need among their uncounted needs. Their need may be in verities like Tin, House repairing, filling up soil level, set up tube well, vegetable seeds etc. They list up one most need for each selected family.

How they will manage in the field:

Badhan observing group will make up a list by name that *Badhan* will provide behave materials. **First** two days *Badhan* volunteers will finish selecting activities and **third** day they will buy what they listed materials according to their need. From **forth** day they people will start to repair their houses and *Badhan* volunteers observe it and participate in their repairing activities. In this program *Badhan* volunteers' duties are not limited buying **and supplying materials** to the affected people but they will make sure that the help is used in proper way. The recipients will work jointly in groups and they help each other in their repairing activities. The reasons for this are **a)** recipients' participation **b)** The feel that they are working not begging **c)** Monitoring of proper usages as the guard each other. If needed *Badhan* volunteers may give special assistance.

Reporting:

Badhan will prepare report for each program separately with photograph and send to SpaandanB Dhaka office and USA. After finishing all programs *Badhan* will prepare a comprehensive report and send to SpaandanB Dhaka office and USA.

Monitoring:

Badhan volunteers will follow-up at least two times after implementation of the programs. *Badhan* will prepare follow-up reports stating effectiveness and send to SpaandanB office by December 07.

Budget for single program:

Houses' materials for each family Tk.4000/=	4000.00* 30=	Tk.1, 20,000.00
Houses repairing materials for each family Tk. 1000/=	*30=	Tk. 30,000.00
Vegetable seeds for each family Tk. 60.00/=	60*100=	6,000.00
Tube well repairing (if any) community (1*2000) =		2,000.00
Administrative for each program-		10,000.00
Monitoring cost 2000*2		4,000.00

Total=1, 72,000.00

Total programs-6 (six)

Amount needed- 1, 72,000.00*6= 9, 32,000.00

(Program categories may vary upon local situation and availability of fund.)
