

BUET-88 Club Flood Rehabilitation Program Interim Report

Nov 18, 2007

As you may learn from BUET'88 club President Rafez's email that we (President - Rafez, GS- Ahsan Habib Manik, me, EC member - Asad, EC member - Taleb, member - Mohsin, office secretary - Emdad) went to Sirajganj on 9 November, 2007 to see the progress of Rehabilitation works. We visited the union - Khoksabari where 12 houses were already constructed and handed over to the beneficiary families. Few local journalists (bdnews24.com, Radio Today, Bhorer Kagoj representatives) and local union parishad member accompanied us during the visit. The news were published in one local news paper (I don't have the copy a the moment).

Next day I visited other union - Songacha where also another 12 houses were built.

By now, another 26 houses are being constructed (13 for each unions). So, total 50 houses will be constructed (25 for each union) and will be handed over to the beneficiaries within next two weeks or so.

Can you please provided me the format for reporting to you?

We informed your local representative before hand, so that some one from Spaandan-B accompany us, but they were occupied with other job. Hope in future some one can visit.

Thanks for your supports for the poor and affected people of Bangladesh.

Regards,

Mohd. Abdul Moqaddem (EEE-001)
